Corporate Social Responsibility

At DANTECH we are committed to being a responsible business, both in how we work with our clients but also in terms of how we behave to the wider community.

It is important to our employees to work for a socially responsible organisation and our approach therefore reflects in our people.

Our business activities can have an impact on many aspects of life. Therefore, we are committed to managing that impact through the products we make and supply.

Anti-Slavery

We have a zero-tolerance approach to slavery and is committed to preventing acts of slavery.

Racial Discrimination & The Equality Act 2010

We have a clear a clear policy against racial, disability discrimination and have equal rights for all staff.

Our people

As a business that has grown substantially over the past 3 years, we have engaged staff so we provide the tools to enable personal growth and fulfilment for individuals and for the firm to work together to make a difference as a team.

Environment

Over the past five years Dantech has developed innovations for the food industry in two sectors that reduce the impact of carbon emissions by clever design, examples are:

- 1| High Power microwave technology for production of skimmed milk powder, improvements in production and capacity each above 10%, perfect for use with renewable energy sources.
- 2| Bacon forming press, acknowledged worldwide by reducing energy consumption by 66%- 300% against our two global competitors.

Environmental Policy

We are committed to continuous improvement in our carbon footprint and have produced our Carbon Footprint Report in 2016 which sets out our ambitions in this important area. Our environmental system comprises of reverse heat pump air conditioning.

Future Plans

One of our key achievements is to become ISO9001 certified within 24 months

Beyond compliance

DANTECH is a responsibly managed firm that aspires to exceed market expectations across all sustainability issues and go beyond legal compliance to proactively reduce our environmental impacts. Our goals are to reduce our overall carbon footprint by embedding environmental controls and practices into the daily management of the firm and thereby encourage positive behaviour from our staff to achieve a greener culture.

Marketplace

We ensure that we buy and sell responsibly helping drive positive change within industry.
