

DANTECH

DANTECH MATERIAL HANDLING EQUIPMENT

DanTech UK Ltd is a leading manufacturer and supplier of processing, lifting & handling, container washing and hygiene machinery & equipment and provider of technical turnkey solutions.

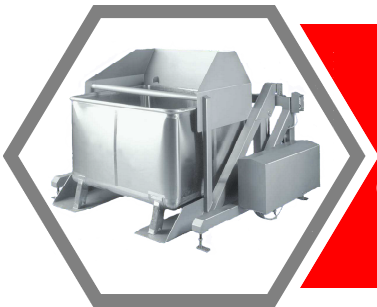

EURO TUBS AND DOLAV CONTAINERS

DanTech supplies a wide range of standard and perforated euro tubs/dolav containers. Sizes available in 120L, 200L and 300L with an electro-polished finish to give easier emptying, cleaning and less adherence to water after washing.

LIFT-TIPPING MACHINES

Lift-tipping machines, for partial or complete emptying for 200L and 300L standard euro tubs are available with left or right coupling fittings and have a tilting range from 1050 - 4550 mm high.

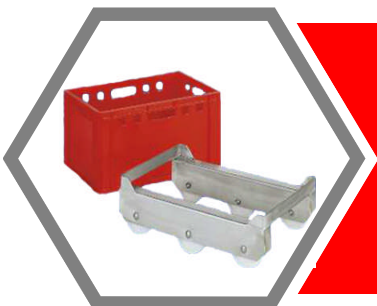

SWING LOADERS

From emptying boxes/containers to filling machines or work benches, DanTech provides swing loaders that can complete or partial empty from heights between 1050 up to 1100 mm. Left or right hand fittings available.

BOOT STORAGE EQUIPMENT

Boot storage racks and stands are made to wall mount and come in variable sizes. They have the capacity to hold between 3 to 15 boots and come with or without the anti theft device.

DOLLIES

Various sizes of dolly for transportation of boxes/creates around factories. Steering and non-steering, 4 or 8 wheel, stackable with small or large dimensions, for different standard boxes/crates.
